

Welcome to the Southwest Gas Energy Efficiency Education Program!

This program is available to schools through your local utility, Southwest Gas. The program helps families learn about energy and how to use it more wisely to save money and conserve natural resources. The program also assists you in teaching valuable concepts from the Nevada Academic Content Standards.

Before Your Presentation

1

- Distribute the Parent/Guardian Letter for students to take home. This letter is available in English and Spanish.
- Confirm how many kits will be required and presentation date/time with your Science Alive contact at DRI.
- On the day of the presentation, bring students to the scheduled location a few minutes early. Have them bring a pencil.

After Your Presentation

2

- Pass out the Take Action Kits to students and inform them they will work through the Family Guide at home with their guardians.
- Set a due date for students to complete the Home Energy Worksheet. (By the end of May)
- Worksheets should be filled in online at <https://sciencealive.dri.edu/energysmart/home-kits>
- Students will need the Teacher ID number to complete the form online.
- Complete worksheets by June 7th, 2019 to qualify for your \$50 Amazon eGift Card.
